

uCANca - Feature #624

Add a project suffix

03/07/2017 12:20 PM - Txinto Vaz

Status:	New	Start date:	03/07/2017
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	4.00 hours
Target version:	v0.2	Spent time:	0.00 hour
Description			
<p>In order to reuse code, allow projects to be prefixed with some string. For instance, if you have a project named Actuator, that generates Actuator() calls and dre, you should be allowed to generate software/models for projects named (for instance) FM1Actuator and PolActuator, generating calls named FMIActuator() and FM1dre.</p>
